

REQUEST FOR QUALIFICATIONS

As-Needed Environmental Consulting Services

The City of Vista is soliciting written qualifications for as-needed environmental consulting services for the City of Vista and Buena Sanitation District (City) sewer projects on an as-needed basis over a three-year period. The City will enter into a three (3)-year Master Consulting Agreement with one (1) selected Consultant. Services provided under the Agreement shall not exceed \$300,000 over the term of the Agreement. A detailed scope of work and fee will then be outlined for each task and assigned to a Consultant along with a Supplemental Agreement.

Consultants may submit qualifications as a single firm with in-house capabilities or as a primary consultant with sub-consultants in order to provide "full service" environmental consulting services on an as-needed basis. For specialized work for which the prime consultant will require a sub-consultant, the prime consultant will serve as an administrative liaison between the City and the sub-consultant. The prime consultant mark-up for sub-consultants shall not exceed five percent (5%). The City reserves the right to request proposals from other firms throughout for special projects requiring unique qualifications.

The work in general consists of supporting the sewer utilities Capital Improvement Program (CIP). The CIP includes new sewer construction, sewer rehabilitation by cured-in-place pipe (CIPP) method, manhole rehabilitation, sewer pump station rehabilitation, microtunneling, and other trenchless methodologies.

The City's CIP is available on-line at:
