

**South Santa Fe Streetscape Project
CIP 8289 & 8291
CONSTRUCTION UPDATE
10/9/19**

For the purposes of orientation, it is assumed that South Santa Fe Ave. runs north/south.

South Santa Fe Avenue

- **THE TRAFFIC PATTERN WILL BE SWITCHED TO THE WEST SIDE OF SOUTH SANTA FE ON MONDAY, OCTOBER 21, 2019.**
 - Northbound traffic only will be allowed along South Santa Fe between Pala Vista Drive and Eucalyptus.
 - Southbound South Santa Fe will be **CLOSED** at Eucalyptus and all traffic detoured to Civic Center Drive.
 - This traffic pattern is expected to be in place through March 2020.
- The contractor will begin removing the existing street on the east side of South Santa Fe to start the last phase of construction for Phase 2.
- Through pedestrian access will be directed to the west side of South Santa Fe.
- Minor elements of work will continue of the west side of South Santa Fe but will not affect pedestrian, business or vehicular access.
- Vehicle and pedestrian access to individual properties on the east side will be provided; however, it may be restricted at times due to safety concerns. The City and contractor will work with individual properties to address access.
- On the west side, temporary streetlights will be installed.
- Limited diagonal parking will be available for businesses on the west side of South Santa Fe.
- The undergrounding for Phase 3 utilities is scheduled to be completed by the end of the year.

Guajome Street

Guajome Street will be reopened. However, only a left turn from Guajome to South Santa Fe will be allowed for northbound travel.

Pala Vista Drive

Pala Vista Drive will remain open.

Terrace Drive

Terrace Drive at South Santa Fe will be closed to through traffic

Phase 3 streetscape improvements have not been authorized at this time.

The City has installed parking directional signs to direct traffic to Merchantile Street for businesses that have direct access onto Merchantile Street.

As a reminder, the City is giving special consideration for business signage during construction. Businesses are encouraged to provide additional signage for their businesses. For more information on business signage, please visit "Road Construction Tool Kit" on the City's website:
